THEY REACH MANILA.

Filipino Peace Commissioners Have
a Talk With Otis.

NO PEACE FOR THEM

They Have No Proposition to Make, No
Power to Make Peace and Gen-
eral Otis Hears Them in
Silence.

Manila, May 20.—General Gregorio del Pilar, commander of the insurgent forces in front of General Lawton's division; Lieutenant Colonel Alberto Barretto, a former member of the Filipino cabinet, the commissioners appointed to cooperate with the American commissioners, reached Manila by special train from Malolos at 8:15 o'clock this morning.

The party was met by Lieutenant Colonel Barry, adjutant general, and conducted from the train to lunch, at the Capitan, and after breakfast were driven through the city to Ayuntamiento. The party was closeted with General Otis for more than an hour, but the interview was decidedly unsatisfactory, as the commission had nothing definite to propose, and being unempowered to negotiate terms.

The commissioners brought a communication direct from Aguinaldo asking for an armistice, pending a decision by the Filipino congress as to what policy would be adopted.

As before upon several occasions, Gen. Otis refused to entertain the proposition.

The commissioners after leaving the city hall, accepted an invitation to visit the Oregon and other vessels of the American fleet in the bay, and they also were granted permission to see their families before returning.

The expedition up the Rio Grande river met with no resistance except at the outskirts of San Luis, where several hundred Filipinos were entrenched on the banks of the stream. The rebels retreated beyond Canadaba and the gunboats steamed ahead, all the way training their Gatlin guns upon the banks and dropping shells wherever uniforms appeared on the shore. The gunboats dispersed the insurgents before San Luis.

After they had passed, sharpshooters from the trees across the river shelled the Seventeenth infantry which was marching by fours along the narrow wooded road, from which the troops were unable to see the enemy. The members of one battalion laid on their faces in the road for a quarter of an hour, trying to locate the riflemen and return their fire. Two Americans were wounded.

The road wound close to the stream and was thickly settled. It was a picturesque march. Many groups of hundreds of natives were clustered under the trees on the opposite banks, displaying white rags. Some shouted welcomes to the American soldiers, but most of them maintained a sullen silence.

An old man in a carriage met the troops two miles outside of the town. He said: "I have lived in England and have told the people that the Americans are like the English and that they need not be afraid."

Captain Grant, in command of the gunboats, landed before the troops arrived and met with a "Porto Rican" welcome. The natives who had assembled on the shore crowded about the Americans with fulsome friendship apparently half afraid that they would be massacred.

Captain Grant quickly distributed the men from the gunboat Laguna de Bay to guard the town, and the natives sent a messenger to tell the people who had taken refuge in the swamps to return. Hundreds of the natives thereupon returned timidly, a man with an improvised flag of truce flying from a bamboo pole, preceding each party.

A Capuchin priest, one of the few whom the Filipinos had not imprisoned, was found at Canadaba. He said it was useless to try to convince the natives that the Americans had not come to oppress, as they believed their leaders, who had strongly impressed this belief upon them.

Colonel Kobbe remains at Canadaba. General Lawton is marching south from San Isidro. General MacArthur remains at San Fernando. The Nebraska regiment has returned to Manila for a rest.

The Nebraska regiment numbers about 800 weatherbeaten veterans. Two companies are mere squads, and their battered canteens and shiny clothes show unmistakable marks of rough campaigning, but the soldiers are happy. Several of them dropped by the way from heat, but when they boarded a special train at Calumpit bound for Manila, they yelled like schoolboys, and other troops went to their stations and were cheered heartily.

Colonel French, with the Twenty-second infantry, was sent down the river three miles from San Isidro by General Lawton. He met the enemy, driving them out with a loss of four Americans. The Rio Grande will then be clear of insurgents.

Dewey Leaves Manila.

Washington, May 20.—Admiral Dewey cables the navy department that he has sailed with the Olympia from Manila to Hong Kong.

HORRIFYING SIGHTS.

Hurricane Off Queensland Destroy Towns and Every Living Thing.

Vancouver, B. C., May 20.—Shortly before the steamer Mowers left Sydney for this port the cutter Mystery, returned to Cooktown from the scene of the recent disaster by the hurricane on the north coast of Queensland, by which practically every vessel engaged in pearl fishery was wrecked and much property lost.

The sights that met the eyes of the relief expedition along the isolated coast were horrifying beyond description. In one place where a picturesque village with a population of 300 had stood, neither house nor tree nor living thing was left. The site of the little settlement looked like new plowed land and the survivors had fled for safety to an inland town about 12 miles distant. There, and further up the coast were mangled bodies of men and domestic animals. Several were rescued with some difficulty, wedged in branches of trees that had defied the storm where they had been blown from a distance of a quarter of a mile.

The Mystery officers and crew recovered in all 58 bodies, of which 18 were identified and claimed by relatives. Of the remaining 40, 36 were natives, whose remains were given a respectable burial in one great trench.

The Mystery party found large fish and wreckage 30 and 40 feet above the high water level, and trees and vegetation levelled for upwards of 50 miles along the coast. Official reports say 86 vessels were wrecked and 385 people lost their lives.

LAKE CITY POSTOFFICE.

Congressman Norton Will Try and Have
the Office Opened Again.

Columbia, S. C., May 20.—Congressman James "Norton" is going to Washington to endeavor to persuade the post-office department to restore the postoffice at Lake City, discontinued when Postmaster Baker was murdered. Three hundred town people have to send to the railway station three miles away for their mail. Congressman Norton says the boycott on the town by the postal authorities, while punishing the guilty to some extent, works a great hardship on the merchants of the town. The people are not allowed to mail letters on the trains, the drop slot in the side of the mail car being closed when that town is reached. If a letter is thrown into the mail car it will not be received by the mail clerks.

Santa Fe on Public Land.

Santa Fe, N. M., May 20.—It has been officially announced that not a single property holder in Santa Fe owns a foot of ground nor has the city a title to the streets or the plaza. The courts have decided that the Santa Fe grant is illegal and that the city and township are situated on government land, and that the city has no right to collect taxes levied on lands. A public mass meeting will be held, and the surveyor general will be requested to expend a \$5000 appropriation. He is about to return to Washington, D. C., for a survey of the township, and the land office will be asked to issue small holding titles to lands occupied by settlers under the present law. However, the city cannot acquire title to the streets and the plaza and the courts will be asked to set the law aside.

Killed by a Cow.

Urbana, Ill., May 20.—Ethen Green, the 11-year-old son of F. M. Green was dragged to death by a cow. He was leading the animal from the pasture, and had tied the rope around his waist. The cow became frightened and started to run. The boy was thrown beneath the animal's hoofs. His head was crushed, and he died without regaining consciousness.

Depot Dynamited.

Mansfield, Mo., May 20.—The depot of the Kansas City, Fort Scott and Memphis railway at Cedar Gap was entered by burglars, the safe blown to atoms and the entire east half of the depot building destroyed. The burglars secured all the money in the depot. They used dynamite. There is no clew to the culprits.

Pistol Accident.

Pine Bluff, Ark., May 20.—Miss Mattie Phillips was shot through the hand while cleaning a revolver. The bullet, after passing through her hand, struck her sister upon the chin. Her sister was sitting at the opposite end of the room. The discharge was accidental.

Despondent Widow's Suicide.

Centralia, Ill., May 20.—Mrs. Joseph Droll, a wealthy woman, committed suicide at her home by swallowing carbolic

SECRETARY WILSON

At College—"Texas Not Like
an Ordinary State. It
is an Empire."

PAISED THE COLLEGE WORK

Said Everything is Being Done
There That Can be Done
With the Means and the
Room at the Hands
of Those in Charge

Hon. James Wilson, United States Secretary of Agriculture, spent several hours at the A. and M. college yesterday, after having visited the coast country, the great cotton growing territory, the tobacco region, the fruit growing districts along the I. & G. N., and made a trip to Austin, where he delivered an address before the legislature. Secretary Wilson has been warmly received by the people of Texas, and in return he has made himself highly agreeable and entertaining on all occasions. No one who has met him doubts that he is an able and efficient chief for the agricultural department who is working with prodigious energy and much success towards the betterment of the farming interests throughout the whole country. In the language of Texas Farm and Ranch, "He is a model secretary of agriculture attending to the busi-

ness of his office with intelligence, fidelity and enterprise, and the agriculture of the entire country is feeling the impulse of his genius."

Secretary Wilson arrived at college at 11 a. m., on a special train, supplied through the courtesy of the I. & G. N. railway company, and was accompanied by his son and private secretary, Mr. James W. Wilson, and by Mr. J. H. Hawley, general agent, and G. L. Noble, assistant general superintendent of the I. & G. N. Mr. Wilson was met at the depot by Prof. R. H. Whitlock, vice-president of the college, Prof. J. H. Connell, director of the experiment station, and Prof. R. H. Price, entomologist and horticulturist, and was conducted to the president's office where the faculty and officers of the college were introduced. After an hour's conversation on soil, climate, crops, and the needs of agriculture in this state, during which Mr. Wilson gave free expression to his impressions of the state, he was shown through the various departments of the College paying especial attention to those devoted to horticulture, agriculture, chemistry and veterinary work. Mr. Wilson is an A. and M. college man, and was director of the Iowa station. He displayed a modest but perfect familiarity with the work throughout, and asked many questions that were readily answered by Prof. Connell, who conducted the party on its tour of observation, and himself gave unassuming evidence of the thorough understanding and capacity he has for the important work in his hands.

These facts were noted by Mr. Wilson who took frequent occasion to commend the work, and added that all that can be done at the college with the room and means at command is now being done by those having the work in hand.

After looking at the departments

TOLD IN VERSE.

Ten thousand voices sweetly sing
Their praises of the household boss,
And cash to Clarke & Dansby bring
For sacks of finest "Albatross."

The cooks delight to see it rise
When it is gone they mourn its loss,
And sing its praises to the skies
The only flour, the "Albatross."

The boarders laugh in pure delight
And when it is gone they all get cross,
Because they think its only right
To use the best, the "Albatross."

And "Ferndale," too, for its peach,
Asparagus and young snap beans,
It's the finest in your reach,
Yes, that is just what Ferndale means.

Fresh tomatoes, corn and pease
Selected with the utmost care,
Send their message on the breeze
To the hungry everywhere.

Go to Clarke & Dansby's store
On the west side of Main street,
Buy their goods and you'll buy more—
Everything that's good to eat.

Their goods are new, yes, fresh and
sweet—
The finest brands of everything;
Their prices low and can't be beat—
Let all the town their praises sing.

Telephone 106.

Mr. Wilson was shown through the barns, fields, truck patches, orchards and vineyards. All were clean and growing beautifully, with an abundance of grapes and peaches. The whole campus is rich in verdure and presented a scene which made the secretary's alert blue eyes sparkle with pleasure.

In reply to inquiry by the reporter Mr. Wilson said: "You now have 325 students here, and you should have 1500 or 2000 to do justice to the many industries of this great state in comparison with other states. The prospects of development to that standard depend entirely on the people of Texas." In this connection the secretary dwelt upon the need of more liberal appropriations for carrying on the work of industrial education in a state like Texas, and said that the saving to the state through the work of an adequate corps of scientific men and the training of hundreds of young men would grow to be incalculable.

The secretary was immensely interested in the work of the Farmers Congress and the allied organizations which meet during its session, and upon invitation of Prof. Connell, said he would send Mr. Alvord from his department to attend the meeting of the Congress at College, July 25, 26 and 27. In this connection he encouraged the organization of farmers' institutes and the distribution of bulletins and press notes from the experiment station as a means of benefiting directly the agricultural interests of the state and attracting the attention of the people to the work of the college so that more liberal provisions may be made for it and more young men trained and educated.

When asked what the people must do with the cheap cotton problem which is made all the more serious by the boll weevil, Mr. Wilson said: "Crop diversification is the remedy for weeds, insects and bacteria, which can only be gotten rid of by the rotation of crops. This work is quite promising so far as it has gone but it has not gone far enough." In this connection the secretary suggested the raising of alfalfa and the feeding of it and cotton seed products to the 300,000 head of beef steers annually shipped north from Texas; the raising of trained and gaited horses to supply

the world's present strong demand, in which pursuit the distinguished visitor declared it is universally recognized the southern man excels; in dairying for which no other state has greater natural advantages and better and cheaper forage crops than Texas, and dairying brought wealth to the Iowa farmers when they were at their wit's end with wheat; in raising spring lambs for the northern market, because Texas excels in raising sheep, and mutton is in as much demand and as necessary in the markets as strawberries. "Nobody," said the secretary, "will question the ability of Texas for the production of raw material, but the point is will Texas sell skill also? South Carolina is manufacturing one-third of all her cotton and sending it to the China seas. Our Iowa corn is not profitable until we realize upon it by feeding cattle and horses. You must use skill with product to make it profitable. You can always produce as much cotton as you do now, and even more, but you must add these other things also, and add the skill of manufacturing to your cotton." The attention of the secretary was directed by Prof. Price to important work in the horticultural department where an experiment of preserving fruits in their natural colors is in progress, there being on exhibition 125 varieties grown at the College last year. This work is also very important as Texas is able to produce grapes two weeks early than California. Prof. Price stated that he was co-operating in the work of diversification experiments with thirty-six horticultural associations and preparing statistics showing the results of the work.

Another important matter to which attention was directed was the experiments with cattle fever, showing pure bred immune bulls. Over 400 head of cattle have been inoculated in this work, with a loss of less than 5 per cent while the loss is frequently said to be from 20 to 70 per cent. In every department he showed the deepest interest, and his long experience with the work was shown by a scarred finger, while going through the dairy, hurt 55 years ago on a curd cutter.

The secretary epitomized the greatness of Texas by saying: "If a man was entirely familiar with everything in Texas he would have a liberal education if he knew nothing else." Continuing he said: "Get your products and skill ready for the south American and China sea trade which will open up with the opening of an isthmian canal, and the Nicaragua canal is going to be cut right away, and this trade will all be done through the gulf ports."

When questioned by the reporter regarding the plan for attaching the girls industrial school to the A. and M. college the secretary said: "The industrial school should certainly be attached to the college, and the girls should have the benefit of the laboratory and dairying work. This is the place because so many things are taught in common. In our Iowa college we have 100 young ladies and 600 young men and the plan works admirably. The presence of ladies always has a refining influence over men, and the true American is always a gentleman in the presence of ladies."

The secretary said he stood ready to supply the college with all the assistance in his power and would send scientists from his department to assist in the work whenever it would be necessary and would send any kind of seed wanted, to be found in the world. On leaving he again said: "They are doing all they can here with the means at command, but the people of Texas and the legislature of Texas do not yet realize how big Texas is. The appropriation for the work here should correspond with its size."

Secretary Wilson left at 3:30 for Washington being compelled to decline many invitations from this and other states.

LADIES SLIPPERS!

We have a lot of Heel
and Toe SLIPPERS,

SHOT FROM AMBUSH.

Twin Sisters Fired Upon, One Being
Wounded and the Other Killed.

Middlesboro, Ky., May 20.—Mary and
Jennie Gibson, two pretty twin sisters,
each aged 16 years, were shot by ex-
Sheriff Shade Combs, of Letcher county,
at Sergeant. Mary being slightly and
Jennie fatally wounded.

The sisters had attended a dance at
Mountain Cabin, where Combs, who is
said to be of a quarrelsome disposition,
got into a wrangle with two men.

Some time afterward the girls started
for home alone. They had gone but a
short distance when some one fired at
them from ambush. The girls screamed
and Combs emerged from the bushes.

He had mistaken them for the men
with whom he had been quarreling.

He carried the wounded sisters to
their home, and Jennie died two hours
later.

Combs is heartbroken. He gave him-
self up to the authorities.

ARMS FOR FILIPINOS.

Consul Wildman Succeeds in Stopping
a Filibustering Vessel.

Hong Kong, May 20.—Consul General
Wildman has stopped a shipment of
small arms for the Filipinos. The arms
were in the possession of a smuggling
expedition bound for Ling Yan gulf.
Four Englishmen and one American
were concerned in the shipment and ap-
parently the filibuster Bray, was at the
head of the conspiracy.

The Filipino junta here contends that
Aguinaldo is pretending to treat for
peace, merely to gain time for an ex-
pedition with arms and ammunition to
arrive from Japan to Formosa.

MUCH DISCONTENT.

Cubans Do Not Like the Idea of Being
Disarmed Forcibly.

Havana, May 20.—The morning pa-
pers here reflect discontent among the
Cubans over the supposition that their
arms are to be taken forcibly, if
necessary, by the United States military
authorities.

Carlos Cespedes is quoted in the
Times of Cuba, as saying that General
Maximo Gomez entered into the last ne-
gotiations in good faith and that if Gen.
Brooke changes the order agreed upon,
he will break his word given to Gomez.
Cespedes, it seems, thinks the \$3,000,000
had better go back to the
United States rather than the
effort to distribute it be pushed if con-
ditions are that the arms of the Cubans
are to be taken by the American army.

Box of Human Bones.

St. Louis, May 20.—Laborers digging
in a yard on North Taylor avenue un-
earthed a box of bones which were pro-
nounced to be from a human body. The
bones were all broken as if by a hatch-
et and through the skull were two small
holes, resembling bullet holes. The
box had evidently been buried for
years. In 1892 a young lady named
Richards disappeared and was never
found. The police are now inclined to
believe she was murdered, the body
dismembered and buried in the box just
found.

Southern Chautauqua.

Columbia, S. C., May 20.—An organ-
ization to be known as the Southern
Chautauqua association is in process of
formation. It will be organized under
an act of this state controlling social
and charitable organizations. The as-
sociation is to have a capital of \$25,000.
The location will be at the "Chautauqua
by the Sea," on Isle of Palms, off the
coast of Charleston.

Meningitis Killing Cattle.

Sioux City, Ia., May 20.—An epidemic
of cerebro-spinal meningitis has ap-
peared in cattle herds in this vicinity.
Veterinarians think it is due to the ani-
mals drinking from the stagnant and
putrid pools left by the recent flood. It
is hoped to remove all affected herds so
as to prevent a spread of the disease.
Fifty per cent of the cattle affected al-
ready have died.

Fire at Neosho Falls.

Yates Center, Kan., May 20.—Fire
caused a \$25,000 loss to the business
men of Neosho Falls, 18 miles from here.
The blaze resulted from an explosion of
a lamp in a clothing store. The Neosho
Falls bank, postoffice, Post Printing
plant, a clothing and grocery store and
several smaller buildings were con-
sumed. The insurance is light.

An Ice Plant Burned.

Clinton, Mo., May 20.—The ice man-
ufacturing plant and cold storage rooms
of F. A. Elsner were burned down
here. Elsner says the plant cost \$80,-
000. Its capacity is 60 tons of ice per
day. The insurance amounts to only
\$7000. The salvage will approximate
\$10,000. Incendiarism is suspected.

Christian Scientist's Death.

Dubuque, Ia., May 20.—A. M. Don-
ner, an employee of the Peaslee Brewing
company, died here under Christian
Science treatment. Donner had attained
a ripe age, but no declined any other
ministrations save the laying on of
hands.

Tenant Farmer Killed.

Canton, Tex., May 20.—About four
miles south of here, a difficulty occurred
in which a tenant farmer named Bridges
received a lick that crushed his skull
from which death ensued.

Fatal Horse Kick.

Lubbock, Tex., May 20.—Golden New-
man, a boy 16 years old, brother of Mrs.
H. D. Veal, was kicked in the right side
by a vicious horse and killed.

Oats Heading Finely.

Denison, Tex., May 20.—Oats in the
country are heading finely.

a box. **Savon de Violet and Helio-
tropes Toilet Soaps** three cakes for 25 cents.
Delicate and Lasting Odors, quality superior to
higher price soaps.

WILSON-JENKINS DRUG CO.
TELEPHONE 20.

Mr. R. M. Nall, tax assessor, says there
is more cotton planted in Bracos coun-
ty this year than ever before, and that
the crops are in better fix than usual at
this time of the year owing to the
splendid working weather which has
prevailed. He says if the season is
favorable Bracos county will raise more
cotton this year than ever before. The
corn crop is also doing well.

The Grubbs industrial school bill re-
mains in statu quo and will probably not
be acted on at the present session of
the legislature. Meanwhile Bryan has
gained much prestige from the passage
of the senate amendment locating the
school at College, and has decidedly the
best of the matter, even if it lies over
to the meeting of another legislature.

College yesterday, requested The Eagle
to announce that band concerts will be
given every Sunday afternoon from 5 to
6 o'clock at college, weather permitting.
There will be a concert this afternoon.

TEXAS LEGISLATURE.

Conference Report on the Antitrust Bill Submitted by Committee.

HOUSE ADOPTS IT.

Senator Hanger Attacks One Feature of the Report and it Goes Over in the Senate—House Passes Income Tax Bill.

Austin, May 20.—The house and the senate took up the conference committee's report of the antitrust bill yesterday. The report was adopted by the house by a viva voce vote without opposition, but a balk was caused in the senate by Senator Hanger.

Senator Hanger attacked the report and declared that those who are supporting it are hurting the Democratic party, because the said report recommends the striking out of section 7, of the bill, which exempts labor organizations, agriculturists, and live stock producers from the operation of the bill.

He said that should this report be adopted the laboring men could not band together to protect their wages against corporations of any kind, and that producers of cotton, wheat and other agricultural products could not get together to maintain prices on the staples against the operators in Liverpool and elsewhere and that the live stock men would be powerless to get proper prices for their cattle.

He declared that the men following the above named advocations have been the bulwark of the Democratic party for years, and he appealed to the senate to vote down the report.

Action on the report was postponed to Monday.

The Grubbs bill is still before the senate under call, that body refusing to excuse absentees.

The resolution by McGee was adopted providing for printing and binding in sheep 250 volumes of the senate journals of this session for distribution among the members and officers of both houses.

Perry's house bill providing for the destruction of prairie dogs was killed by having its enacting clause stricken out.

Mr. Linn's bill placing Matagorda county under the butcher's bond law was passed finally under a suspension of the rules.

The senate free conference committee on the appropriation bill was excused from attendance on the senate.

Mr. Vaughan's house bill looking into the reorganization of the state militia was passed to a third reading.

The senate after passing several bills creating more efficient road systems for several counties, adjourned to Monday.

The house finally passed Morrow's income tax bill. This bill was engrossed a few days ago and was called up and pushed through with almost no opposition against it.

An amendment was adopted reducing the tax from 2 per cent to 1 per cent on all incomes of individuals and corporations over and above \$2000 per annum.

The senate bill to authorize the several counties to invest their permanent school fund was postponed to June 3, which practically killed the bill.

The senate bill to amend article 4968 of the revised civil statutes relating to estrays was passed.

Monroe's bill to prevent and punish illegal marriages was passed.

The house disposed of a number of other measures and adjourned to 8 o'clock Monday afternoon.

Secretary of Agriculture Wilson was received and honored by both the house and senate.

Charged With Counterfeiting.
Wilmington, N. C., May 20.—Secret service agents of the government arrested here two counterfeiters and seized a quantity of bogus money. The first arrest was that of Walter Silvey at his home in the northern part of the city. The other was Nick Politz, a Greek, who kept a grocery store near Front street market. Politz had counterfeit dollars and half dollars, crucibles, tools and a quantity of bar metal. In the room occupied by Silvey the detective found 800 or more bogus nickels and a lot of metal, dies, etc.

Soldier's Sentence Commuted.
Washington, May 20.—Charles Farris, company H, Third United States infantry, was found guilty of murder by a courtmartial in Santiago, Cuba, and sentenced to be shot. The case was sent to the president for review and the death sentence has been commuted to life imprisonment and dishonorable discharge from the army. The president directs that the prisoner be confined at Fort Leavenworth.

Banker Stabbed by a Beggar.
New York, May 20.—John H. English, former president of the Wallabout bank, Brooklyn, was stabbed in the neck by Christopher Daly, a beggar. The wound is a severe one and is dangerously close to the jugular vein. Daly had been to English's house a few days since to ask for alms and was dissatisfied with the food given him. He laid in wait and abused English for this and stabbed him.

Railway Man Suicides.
Palestine, Tex., May 20.—William F. Harden, aged 29, employed in the railroad shops, committed suicide here. He gave for his reason in a letter to his parents, that owing to an impediment in his speech, which he found to be incurable, he has decided to take his life. He was apparently in good circumstances at the time of the deed.

THE WERFA WRECKED.

Nineteen People Were on Board and All Lost but One.

Victoria, May 20.—The schooner Werfa, which left Duendon, N. Z., last September on an interisland trading expedition, with a party of 19, was wrecked, and all but one of those who started out on her was lost. News of the accident reached Sydney in a bottle found at Stanwell park, near Halsburg, N. S. W., on April 3. The message in the bottle said: "October 26, 1893. The schooner Werfa, Captain Johnston, from Dunedon, N. Z., wrecked about latitude 22, longitude 47. All hands lost but me. Am on a island somewhere off coast of New South Wales." The writer did not sign any name and all who had friends on board joined in sending an expedition in search for him. It was known that the vessel was missing.

COLUMBIA'S LAUNCHING.

It Will Take Place at Bristol on the Evening of June 8.

Bristol, R. I., May 20.—The Columbia's launching hour on June 8 has been arranged by the managing owner, C. Oliver Iselin and the designer Nathaniel G. Herreshoff for 7:30 o'clock in the evening owing to the disinclination of the Herreshoffs, like Fife, to have photographs of the Columbia's water body at this time. Other reasons are given, however, which appeal more forcibly to the public. One of these is that there is two high tides during the day, one about 7 a. m., and the other 7 p. m., the latter hour is far more convenient for the society folk who will grace the occasion, giving them ample time to come up from Boston, Providence, Newport and New York.

The Columbia will contest for the American cup in the international yacht race.

Murdered Man's Body Exhumed.

Santa Fe, May 20.—The body of Fred L. Merrill, recently murdered, was exhumed and, in the presence of officials and doctors, the head was severed from the body and taken to the mayor's office, where a third post-mortem examination was made. The head will be one of the exhibits of the prosecution in the trial of Walter E. Locke, for the murder of Merrill. The third post-mortem examination confirmed the assertion that Merrill was murdered. The trial will hinge on expert medical testimony, an alleged ante-mortem statement of Merrill, being the main evidence against Locke, who maintains that Merrill committed suicide.

For Discharging Union Men.

Mount Vernon, Ills., May 20.—The grand jury in session here returned an indictment against William Wigginton, foreman at the car shops, for discharging employees because they had joined a labor organization. Several days ago a labor order was formed here, and a union labor order was formed here, and a number of the car shop employees joined it. Believing the organization to be inimical to the shop's interests, the management posted a notice to the effect that no one belonging to the union would be employed. Through the foreman, Wigginton, those who had joined were discharged. The penalty is a fine of \$100 or six months imprisonment, or both, at the discretion of the court.

Bunting in Demand.

New York May 20.—The home coming of Admiral Dewey has caused a boom in the drygoods trade. The demand for ordinary cloth prints for conversion into bunting has all but exhausted the supply and converters have found it necessary to take higher goods or material including what is known as 64 squares. In the trade it is estimated that at least 300,000 pieces or 25,000,000 yards of bunting will be used to welcome the hero of Manila bay.

Smallpox in a City Hospital.

Kansas City, May 20.—The city hospital has been closed because of the discovery there of three cases of smallpox, one of the victims being a nurse, another a cook, and the third a patient. The patient whose condition escaped the notice of the authorities. There are 80 patients in the hospital, and 19 of them were in the ward where the smallpox patient was confined.

Given Forty Years.

LaGrange, Tex., May 20.—The jury in the case of the state vs. Will Reed, a negro, charged with attempted assault upon a little white girl 13 years of age, at Holman, in this county, brought in a verdict of guilty and assessed his punishment at 40 years in the state penitentiary.

Imboden Must Stay in Jail.

Kansas City, May 20.—Leonard J. Imboden, formerly of Fort Worth, who was arrested here some time since for operating a "wild cat" bank, will have to remain in jail until September. In the criminal court here his case was reset for the fall term.

Big Cotton Sale.

Pine Bluff, Ark., May 20.—The largest sale of cotton made in Pine Bluff this season was closed Thursday. The Lesser Cotton company of St. Louis, purchased from the Southern Grocery company of Pine Bluff, 2880 bales.

Colonel Rowan Coming West.

Washington, May 20.—Colonel A. S. Rowan, the official messenger of the United States to Garcia at the outbreak of the Spanish war, left Washington for Atchison, Kan., where he will spend a fortnight with his wife's relatives.

Woman Drowned Herself.

Evansville, Ind., May 20.—Mrs. Ann S. Thornberg, 20 years old, wife of Norman Thornberg, of this city, committed suicide by drowning herself in Pigeon Creek.

MARLIN'S MARVELOUS WATERS.

An Instance of their Wonderful Curative Power for Rheumatism.

To The Eagle:—I think a man is doing a good missionary work to tell the world about the Marlin well water and its results when used for diseases in which its properties are indicated as remedies. I believe in it. I have seen things here that seem marvelous and almost incredible. One instance in point, I will here relate:

Messrs. A. M. Bevil and W. R. Slider came here last Wednesday from Comanche, bringing Mr. A. F. Blue for treatment. Mr. Blue was in about as complete a state of collapse from inflammatory rheumatism as a man could well be and live. He was brought all the way from Comanche in a baggage car on a cot, bolstered and pillowed up with the utmost care. Mr. Blue could not move an arm or leg, nor even work his fingers without the utmost pain. He had to be fed like an infant, not being able to carry food to his mouth with his hands. If his face itched he had to tell somebody where to scratch it. His physician doubted his ability to stand the trip, but he came anyway, and his wife cried when they left home, saying it looked like they were carrying him off to bury him.

I talked to him today, after three days treatment by Drs. Cook & Torbett at the Bethesda Bath House, including two baths. He is here in the Hotel Artesia, in a pleasant room, and he is bright with exultation over a remarkably rapid recovery. He has comparatively good use of his arms, legs and feet, and he not only eats without assistance, but I believe after a few days more, being a strong robust looking man, he can go back to Comanche county and tie any bull yearling on her grassy plains.

I find my own health improved and the appetite I came after is coming. Before I left home, I couldn't eat a good dinner if I had had one. I couldn't think about eating without revulsion. The sight of a fat man who looked like he had enjoyed a good meal made me sick just from association of ideas. All this is different now, as the cooks at the Hotel Artesia can fully testify.

There are instances without number that could be named, and while in some cases improvement is a slow and tedious process, yet in most of them, people are gratified beyond measure at the results.

W. P. C.

Navasota Vested Choir.

The Navasota Vested Choir will arrive on the noon train today and will be met at the depot by the Rev. Herbert E. Bowers, L. L. D., by the ladies of Bryan who have so hospitably opened their doors to receive them. The following are the ladies who will entertain the members of the choir: Messdames J. W. English, Judge Doremus, W. S. Wilson, McInnis, Garth, Tyler Haswell and Herbert E. Bowers; Misses Mistrof, Coulter, Jessie Garth and Lucy Wilson. The following are the members of the visiting choir: Mrs. M. E. Hearn, organist and choir directress; Misses Agnes Horlock and Mattie Yarborough, and Mr. Louis Chinski, soloists; Little Miss Rubie, crucifer; Mant Yarborough, Fannie Y. Yarborough, Marie Lockett, Gladys Horlock, Iska Horlock, Maud Bradum, Elis Jack, Willie Rollo, Madlin Rowland, Inez Horlock, Ethal Bridges, Clara Jack, Beatrice Hearne, Addie Rollo, Alfred Ashe, Algie Ashe, Leon Lockett, Virgil Yarborough, Clifford Bramum and Arthur Horlock.

The following is the musical programme for tonight's service: 1. Processional hymn, "Stand Up, Stand Up, for Jesus." 2. Solo, Mr. Louis Chinski. 3. Hymn before the sermon, "In the Vineyard of our Father." 4. Hymn after the sermon, "Hark, Hark My Soul." 5. Special solo by Miss Agner Horlock.

entitled "Over the Hills of Bethlehem."

6. Solo hymn by Miss Mattie Yarborough, "The Day is Past and Gone."

7. Recessional hymn, "Onward Christian Soldiers." The rector, Dr. Bowers, will preach a special sermon. The choir will vest at the rectory at 7:30 p. m. and the rector asks those who will entertain the members of the choir to see that their guests are there on time.

The service at night will commence promptly at 8 o'clock and the public are asked to be in their seats five minutes before that time.

The doors of the church will be closed after the choir is in its place in order that there may be no confusion.

Exchange Hotel Arrivals.
